## TA-3 PLUS™ MACHINES

TENSION-AIR™ (TA-3 PLUS™) production hose clamping machines are entirely automatic. Developed by Punch-Lok®, our hose clamping machines eliminate the need for manual punching or bending when applying hose clamps to hose assemblies. Only requiring one person and an average of three seconds to clamp, makes the TA-3 PLUS™ the fastest and most consistent machine on the market for production clamping.

### FEATURES AND BENEFITS INCLUDE:

- Made in the USA
- Clamp hoses faster to reduce labor time
- Only one individual needed
- Consistent and secure clamping work with every clamp
- Best with Punch-Lok® Clamp sizes of: 3/8", 5/8", and **NEW!** 3/4"
- Can be used up to a maximum hose outside diameter (OD) of 6 1/4" or \*8" OD

# TA-3 PLUS™ MACHINES

The model TA-3 PLUS™ fully-automatic hose clamping machine is designed for use with Punch-Lok® punch-type hose clamps. Clamps are manufactured in 3/8", 5/8" and 3/4" widths, using stainless steel or high-carbon galvanized steel. It may be used to couple hoses up to a maximum outside diameter of 6 1/4"\*. To prevent attack by moisture or corrosive elements, most components have been plated or painted.

The TA-3 PLUS™ operates in a 3-stage cycle, with a slight time delay between each function. Once the machine is properly adjusted for a given application, each hose clamp will be identically tensioned and locked in place.

| PUNCH-LOK® TA-3 PLUS™ MACHINES |                              |
|--------------------------------|------------------------------|
| ITEM NO.                       | DESCRIPTION                  |
| P700000                        | TA-3™ PLUS                   |
| P700002                        | TA-3™ PLUS W/ 8" CONVERSION* |

- TA-3 PLUS™ is for Punch-Lok® Clamp sizes of: 3/8", 5/8", 3/4"
- All new and upgraded machines have a one-year warranty from the day it is shipped out and ends 364 days from that date.
- Machine Shipping Weight: 260 lbs. on a pallet
- Machine Shipping Dimensions: 48" x 48" x 48" on a pallet
- Technical questions can be emailed to [TA3tech@ptcoupling.com](mailto:TA3tech@ptcoupling.com).

## PREFORMED CLAMP SIZE WIDTH COMPARISON

- 20% **GREATER** surface contact
- Works best with External Helix Transfer Hose
